### **“ Revision sheets”**

#### **Unit 3.3 “Climate and time zones”**

**1. Write true or False next to the statement:**

- a. As the degree of latitude increases, the average temperature slowly decreases. True
- b. The sun rays are less intense at the equator. False
- c. The tropical zone lies approximately between the latitudes. 23.5 N and 23.5 S. True
- d. Other significant lines of latitude are known as the Arctic circle and the Antarctic circle. True

**2. Choose the correct answer and fill in the blank:**

|           |          |           |
|-----------|----------|-----------|
| axis      | 24 hours | longitude |
| Greenwich |          |           |

- a. The Earth rotates on its axis
- b. The Earth rotates on its axis in an anti-clockwise direction, once every 24 hours
- c. The Prime Meridian at Greenwich is at 0 degree longitude.
- d. The world’s time zones, each 15 degree of longitude creates one time zone

#### **Unit 3.4 “ Climate and human activity”**

**1. Choose the correct option:**

- 1. The main influence on the climate of an area are latitude, ocean, currents wind and**
- a. Air
  - b. Elevation

**2. Most of the Arabian Peninsula has a**

- a. Desert climate.
- b. Windy and rainy climate.

**3. The climate of Saudi Arabia, Yemen, Oman and the Arabian Gulf countries is described as :**

- a. Sub-tropical and dry
- b. Cold and wet

**4. Cooler air cannot hold as much water vapor and this turns into water droplets called :**

- a. Higher ground
- b. Condensation

**5. When air passes over water, it picks up**

- a. Moisture
- b. Suffocation

**6. A measurement of the amount of moisture in the air is called:**

- a. Humidity
- b. Water vapour

### **Unit : 3.5 “ Weather hazards”**

**1. Answer the questions given below:**

1. Write two weather hazards experienced by the Arabian Peninsula.

Drought, sandstorm

2. What problems people of Arabian Peninsula can face due to its extreme temperature.

Dehydration, Less agriculture production.

**3. What is dust storm?**

A strong north-westerly ‘Shamal’ wind which blows almost constantly.

**2. Choose the best answer:**

|            |             |                |
|------------|-------------|----------------|
| water      | temperature | Arabian gulf   |
| Dust storm | Dehydration | Human activity |

1. Areas in dry and arid climate zones have to manage resources such as water
2. People can only survive in a certain range of temperature and they suffer in extremes of heat or cold.
3. In countries of the Arabian Gulf people can suffer climate-related events.
4. A dust storm can be a tower into the sky and be several meters thick.
5. People can suffer through dehydration and heat exhaustion in the countries of Arabian Peninsula.
6. Even human activity can also be interrupted because it is unpleasant to be out in a dust storm.

**Unit 3.6 “ Weather hazards 2”**

**Answer the following:**

**1. What is drought?**

An average, less or no rainfall for the period of time is called drought.

**2. What is meant by flash floods?**

An excessive amount of rain over a short period of time.

**2. Write True or False :**

1. A tropical cyclone is large rotating storm system. True

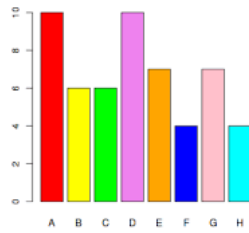

2. Flash floods cannot be caused by an excessive amount of rain. False
3. The flood can cause damage to buildings, bridges, trees and even threat to life. True
4. Tropical storms have a great deal of power and can cause a lot of damage. True
5. Drought means lot of rains in a specific area. False
6. The Arabian peninsula has limited water supplies. True
7. People need water to drink but fresh water is also needed to maintain agricultural industries. True
8. Drought is not one of the worst climate hazard. False
9. Less rains can cause less agricultural productivity. True
10. The Arabian Peninsula has large amount of water. False

### **Unit 3.7 “ Population”**

#### **1. Choose the best answer:**

|            |         |            |
|------------|---------|------------|
| population | pyramid | Pie charts |
|            |         |            |

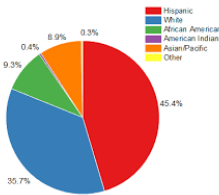

- a.** Population have different characteristics.
  - b.** A special chart is known as pyramid which is often use to show the age structure of a population for both males and females.
  - c.** Pie charts are use to present different types of information.
- 2. Circle the correct answer:**

a.

a. Bar chart

b. Pie chart

b.

a. Pie chart

b. Bar graph

### **Unit : 3.8 “Population distribution”**

#### **1. Write true or false next to the statement:**

- The term urbanization means choosing to live in cities. True
- In most recent times, agricultural machines have replaced workers so there are few jobs in rural area. True
- Rural areas means people tend to live in cities. False
- The distribution of population is not even. True
- Densely populated places have environment where it is easy for people to live. True

- f. Sparsely populated places usually have environments that make it very difficult for people to live there. True
- g. Population density is a measurement of the number of people living in an area. True
- h. The percentage of people living in urban areas in the Arabian Gulf is very less. False

### **Unit 3.9 “Agriculture and fishing”**

#### **1. Choose the correct answer:**

a. **A ----- has to feed itself.**

- a. Population.
- b. Life

b. **New technologies and developments in plant :**

- a. implantation has always been encouraged.
- b. breeding and cultivation are always being introduced.

c. **A method of growing plant without soil is :**

- a. Hydroponics
- b. Breeding

**d.The countries of Arabian Gulf has faced two challenges one of them is:**

- a. The population in the region has increased.
- b. The population has been decreased in the past recent years.

**e. To feed the population of Arabian Gulf, some people estimate that:**

- a. The world food production will need to increase by 70%
- b. The world food production has to be decreased up to 40%

### **Unit 3.10 “ Agriculture and fishing 2”**

#### **1. Answer the following questions:**

- a. **Why farmers in many Arabian Gulf countries are being encouraged to grow a wider range of crops?**

The farmers are always encouraged to grow a wider range of crops because due to the large supply of the product, the prices will go down.

- b. **What is the importance of fish in the countries of Arabian Peninsula?**

Fish is an important part of people’s diet, and fish is the popular form of recreation.

### **Unit : 3.11 “ Oil, gas and minerals”**

#### **1. Choose the correct answer:**

|             |         |           |
|-------------|---------|-----------|
| Crude oil   | oil     | cosmetics |
| Natural gas | Bauxite | Fluorite  |

- a. Crude oil is a thick black liquid.
- b. Oil is made from the long dead remains.
- c. Natural gas is found near oil under the ground.

- d. Bauxite is an ore which produces a material called alumina.
- e. Fluorite is a mineral with several uses.

**2. Write any two uses of oil :**

- 1. It is used as a fuel
- 2. It is used in cooking.

**3. Write any one use of natural gas :**

- 1. It is sent to power plants to create electricity.
- 2. It is used as a fuel.

**4. Write the names of some other minerals that are found in Arabian Peninsula:**

Copper, gold, iron, gypsum.

**Unit : 3.12 “Land and its uses”**

**1. Write true or False:**

- 1. Land can also be used as an agriculture: True
- 2. Land cannot be used for other activities like housing. False
- 3. Agriculture must produce more food but agricultural practices must also be sustainable. True
- 4. Almost 71% of the Earth’s surface is covered with water. True
- 5. 29 % of the Earth’s surface is made up of land. False
- 6. Modern agriculture does not use any chemicals. False
- 7. A process in which fertile land becomes a desert is called desertification. True

**Unit “ 3.13 Regional transportation”**

**1. Choose the best answer:**

|           |          |               |
|-----------|----------|---------------|
| Transport | private  | public        |
| local     | national | International |

1. Transport networks make many other parts of modern life possible.
2. Private transport is anything that is owned by an individual or company for private use.
3. Public transport is transport that is used by members of the public.
