

Desert Habitat - is an area of land, usually in very hot climates, that consists only of sand, grave, or rock with very little rainfall and vegetation.

Check the desert animals.

## Sea Habitat

Colour the sea animals.

## Pond Habitat

A pond is a body of water. Ponds are different from other bodies of water. Sea water is salty, but pond water is not. Lake water is deep, but pond water is shallow. Rivers run, but ponds are still. Animals come to ponds to drink or bathe. Some animals live in ponds. Pond plants give the animals food and shelter. Ponds are their home - their natural habitat.

Choose the pond animals. Colour them.

## Forest Habitat

- Forests are essential for life on earth. It is a large area of land covered with trees or other woody vegetation. Forests also provide habitat for a vast array of plants and animals, many of which are still undiscovered. They protect our watersheds. They inspire wonder and provide places for recreation.

Put check below the picture if the animal live in the forest.

Check the picture if it is water pollution and cross out if it is air pollution.

tools

toys

dangerous

mains

wet

never

Electricity can be \_\_\_\_\_.

You should \_\_\_\_\_ stick \_\_\_\_\_ or \_\_\_\_\_  
into a \_\_\_\_\_ socket.

You must never touch electricity with \_\_\_\_\_ hands.

Which of these things uses batteries? Check them.

# Sources of Light

Write N if it's natural and A if it's artificial under each light source.

Circle the picture that does not belong.

SOUND ENERGY

LIGHT ENERGY

HEAT ENERGY

Colour the transport pictures below.

Where do they move?

Write air, water, or land in the box below it.

# Weather Match

Match the weather to the correct picture..

snowy

windy

rainy

sunny

Write the name of the season.

Spring

Autumn

Summer

Winter

1.

3.

\_\_\_\_\_ is warm.

2.

4.

\_\_\_\_\_ is cold.

\_\_\_\_\_ is cool.
